### Visa Required?
- YES  
6 month visa (apply through HKBU). Visa labels are mailed in July (to permanent home address). Work visas need to be obtained once students have found co-op employment. Students must have passport valid for 2 years from arrival in Hong Kong.

### Health Insurance?
- YES  
Students are required to prove that they have insurance coverage that meets the minimum requirements outlined by HKBU. Students are covered by a general accident insurance plan, but they are NOT covered for routine medical care or while traveling away from campus.

### On-Campus Housing
- YES  
There is a limited number of accommodation available at HKBU. Students have the option to apply for on-campus housing but it is not guaranteed. Students have found off-campus accommodation in the past.

### Orientation?
- YES  
HKBU offers a 3 day orientation including course registration. Students will have 2 weeks to sit in and add/drop courses. Residence Life info, a welcome lunch, and a one day tour of Hong Kong will be included.

### Co-op Help?
- NO  
HKBU does not help students secure internships. All students should submit their resume to their Academic Advisor and will be notified of opportunities in China/HK via e-mail. Students may also consult the NU International Co-op Office and should apply independently via expat and internship networks.
